CARLYLE CONDOMINIUMS Minneapolis, MN

Owner: Carlyle Homeowner's Association

Architect/Structural Engineer:

Opus Architects and Engineers

General Contractor: Opus NW Construction LLC

Concrete Contractor: Opus NW Construction LLC

From the President

There are many reasons why the contractors and suppliers of the Minnesota Concrete & Masonry Contractors Association choose to build with concrete and masonry.

Each and every year the members of MC&MCA have the pleasure of seeing a design concept “come to life” using concrete and masonry materials. And this year is NO exception!

The quality construction and design execution produced by this year’s winners for “Excellence in Concrete and Masonry Design & Construction Awards” may be the best ever!

We all know structures built with concrete and masonry material by our trained and talented hands result in environmentally and structurally sound buildings. They not only stand the test of time, but they are also less expensive to operate and maintain.

And the structures that were judged this year demonstrate that working together, we CAN build a beautiful structure out of concrete and masonry!

These projects exemplify the passion and the pride that goes into perfecting our craft. Thanks to the architects, designers and

engineers that consistently promote and design with concrete and masonry. Thanks also to our contractors, suppliers and the employees that build with quality and pride in mind—every day, 24/7!

The MC&MCA has been “home” to some of the best commercial builders in the country since 1964.

We look forward to many more years of partnering with you—the design community, the material and service providers, and the laborers that bring our vision to life!

If you would like to learn more about the MC&MCA contact Executive Director, Gary Botzek at 26 East Exchange Street, Suite 414, Saint Paul, MN 55101, or call him at 651-293-0892. Be sure to visit our website at www.mcmca.com.

Sincerely,

Todd Frantz
President
