

Minnesota Concrete & Masonry Contractors Association

Brick, Block, Stone and Concrete for over 54 years

Membership Benefits for **ARCHITECTS/ENGINEERS/DESIGN PROFESSIONALS**

MC&MCA MISSION

Advancing the concrete and masonry industry through relationships, representation & promotion

What is the value of the MC&MCA to you?

MC&MCA offers complimentary membership to Architects/Engineers/Design Professionals. This two-way street allows the dream team to get to know the team on the field better to design and build the best concrete and masonry structures in the construction community.

- MC&MCA's regular face-to-face gatherings in the form meetings, social events and educational training and provide great opportunities to ***cultivate valuable business relationships***. Members have an opportunity to network with concrete and masonry contractors, suppliers and producers. Other networking events include the annual golf tournament, annual bird hunt, our Excellence in Concrete & Masonry Design and Construction Awards contest judging day and awards banquet, learning seminars, industry events and advertising opportunities.
- ***Training and educational opportunities*** are developed and made available for our members. Education focuses on diverse issues such as industry knowledge, new business trends, safety issues, legal issues, affirmative action and equal opportunity employment.
- The annual MC&MCA ***Directory and Buyers Guide*** lists all MC&MCA members and allied industry friends and is a popular and valuable industry resource.
- The MC&MCA uses ***social media and online resources*** such as our website, Facebook, Twitter and LinkedIn, which feature industry information, increases networking, highlights the Excellence Awards winning projects and lists all MC&MCA members, all of which makes information regularly available while promoting both concrete and masonry to end users.
